

MONA FAWAZ

Software Engineer | IT & Digital Solutions Specialist

Jeddah, Saudi Arabia | +966 53 020 9591 | mona.fawazalmalki76@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer and IT Specialist with hands-on experience in enterprise systems development, operational process automation, and cross-functional coordination between technical and administrative teams. Possesses advanced skills in application engineering, systems requirements analysis, and building modern digital tools to enhance operational efficiency and minimize errors. Highly adaptable in project management, agile execution, and fully prepared to take ownership and leverage technical and organizational expertise to drive strategic institutional goals.

EDUCATION & PROFESSIONAL TRAINING

King Abdulaziz University — Bachelor of Science in Information Technology

May 2025

Jeddah, Saudi Arabia | GPA: 4.54 / 5.00 (Excellent with Second Class Honor)

Saudi Digital Academy (Himma Bootcamp) — Software Development (Python Full-Stack)

August 2025 – November 2025

Intensive training in software architecture, REST API development, SQL databases, and Docker containerization.

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Saudia Airlines — IT & Software Development Intern

June 2024 – August 2024

Jeddah, Saudi Arabia

- Operational Coordination & Integration:** Collaborated effectively with cross-functional teams (Development, DevOps, and Business) to optimize environment productivity and operational workflows.
- Enterprise Systems Development & Support:** Contributed to supporting and upgrading internal IT systems to ensure business continuity within a large-scale software infrastructure.
- Software Automation & Tooling:** Implemented critical system enhancements, including developing the PNR Retriever project and automated audit tools to minimize errors and save processing time.

SOFTWARE PROJECTS & ACHIEVEMENTS

Optivalue-IVI Risk Management Platform — Bupa Arabia Hackathon (Futurethon)

February 2026

- Engineered and developed an AI platform within 72 hours to automate insurance claims analysis, predict risk ratios, and minimize financial and time losses.
- Technologies:** Python, Streamlit, Data Modeling, Risk Analytics.

Qawam AI Sports Assessment & Smart Guidance Platform

April 2025

- Designed and built an AI-powered software platform providing real-time feedback, performance analytics, and digital gamification mechanisms.
- Technologies:** AI Models, Python, Real-time Feedback, Gamification, UX/UI Design.

Bird Care Web Application

November 2025

- Developed a full-stack web application featuring advanced authentication systems (JWT) and containerized deployment with Docker.
- Technologies:** React/Vite, Python/Django DRF, JWT, Docker, REST APIs.

StudySync Operations & Task Management System

March 2025

- Engineered a web application for workflow management and automated notifications to boost operational productivity and simplify administrative scheduling.
- Technologies:** Web Architecture, Automated Reminders, Task Scheduling, SQL.

Smart Educational Platform — Eduthon Hackathon (3rd Place)

March 2024

- Innovated and built an interactive AI-driven educational platform, securing 3rd place for implementing modern EdTech solutions.
- Technologies:** AI Algorithms, EdTech Solutions, User Analytics.

Fire Survivor Interactive Game — Civil Defense Hackathon

March 2023

- Designed and developed an interactive simulation game to evaluate emergency response speed and precision while raising risk management awareness.
- Technologies:** Simulation Logic, Risk Management, Interactive UI.

CERTIFICATIONS, SKILLS & LANGUAGES

- Certifications & Training:** Cisco JavaScript Essentials 1 & 2, Python Software Development (Satr), MySQL Databases, and UX/UI Design.
- Programming & Technical Skills:** Python (Django/DRF), JavaScript (React/Vite), C#, ASP.NET MVC, Next.js, Java, SQL, Docker, Git/GitHub, Figma.
- Administrative & Management Skills:** Process & Systems Automation, Project & Task Management, Systems & Requirements Analysis, Problem Solving, Time Management.
- Languages:** Arabic (Native), English (Advanced Professional Proficiency).
